Dream Line High-Rate Sand Filters

Dream Line Pools

Dream Line filter systems are manufactured exclusively by Hayward Pool Products, Inc.

Dream Line
High-Rate Sand Filters

Dream Line

The Dream Line High-Rate Sand Filter System offers advanced full-flow technology that results in sparkling pure water, energy efficient operation, and good, clean fun for the entire family.

It's also simple to operate. The Dream Line control valve lets you quickly and effortlessly select the desired pool filter function with just a gentle twist of the wrist.

Plus, its rugged, corrosion-proof tank construction ensures trouble-free operation for a long, long time.

All of which makes the Dream Line filter a crystal clear choice.

Filter Features:

- Rugged, durable color-fast polymeric tank for all weather performance.
- Self-priming high performance pump with NEW PermaGlass XL™ housing (with optional timer feature).
- Injection molded, deluxe system base keeps equipment off the ground.
- Dream Line's full-flow technology optimizes water circulation to reduce operating time and save energy!

Specifications:

Model Number	Filtration Area	Design Flow Rate	Turnover	LBS of Sand
S170TSCP	1.5	38 gpm	22,800	100
S190TSCP	1.8	45 gpm	27,000	175
S190TSCPFT*	1.8	45 gpm	27,000	175

* Includes Microprocessor Timer

Timer Features:

- Four preset filtration settings for trouble free programming.
- Fully integrated, so unlike add-on timer units, requires no additional electrical connections.
- Manual override switch eliminates the need to plug/unplug the pump to turn it on and off.

Optional Microprocessor Timer

Enjoy the benefits of operating your pool filtration system whenever you desire–with the optional Hayward Power-Flo LX Plus integrated microprocessor pump timer.
